

Serious Business. Seamless Solutions.

Equitrac Office® for Kyocera MFPs

REDUCE THE COST OF YOUR COMPANY'S PRINTED OUTPUT

Today's businesses are continually challenged to balance document productivity with cost reduction, security and environmental sensitivity. Kyocera offers a simple and convenient way to meet this challenge with the **Equitrac Office**® solution, available on select Kyocera devices. Businesses gain enhanced control of their documents and devices, enabling administrators to monitor output costs and manage departmental budgets.

- **Track and manage usage and costs** by user, device, department, or location
- **Save time and improve flexibility** with Equitrac's Follow-You Printing® – output documents as needed from different departments or buildings
- **Reduce waste and lower costs** by only printing the documents you really need
- **Enhance security** through password-protected output
- **Reduce environmental waste** by curbing unnecessary printing

Convenience Meets a New Level of Security

The Equitrac solution integrates with select Kyocera multifunctional products (MFPs) for easy installation, configuration and deployment. Equitrac's versatile solution allows businesses to set multiple output policies at the administrative level, while automatically tracking print and copy output costs. Equitrac's innovative Follow-You Printing® feature increases workplace access and office productivity, allowing users to output and retrieve their documents in a secure manner from any Equitrac enabled device.

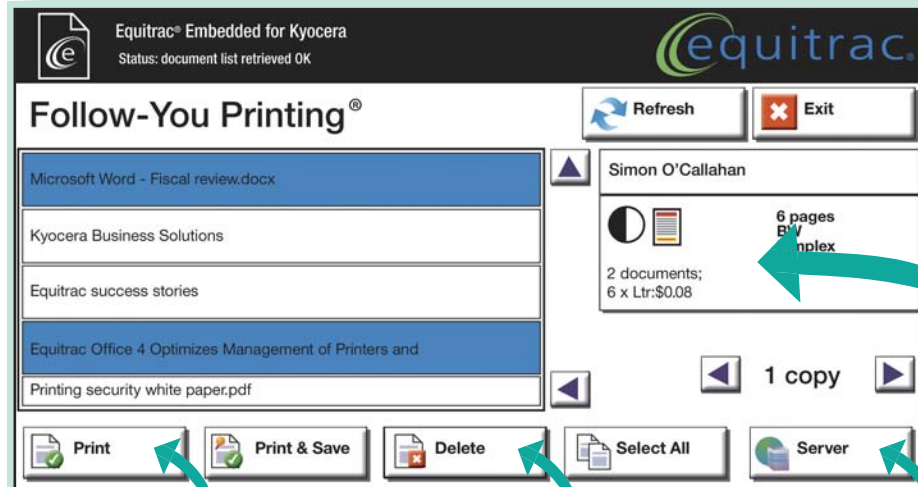

Control Costs with Kyocera and Equitrac

With Kyocera's award-winning devices and the Equitrac solution, costs can be assigned to every document and relayed to the user at the PC or device panel before proceeding with the job, thus enabling more intelligent print or copy decisions. By making users aware of specific job costs, businesses can substantially reduce unnecessary output and the impact on the bottom line. The reduction of waste and the introduction of document accountability also minimizes the impact on the environment, helping businesses meet financial and corporate social responsibility goals.

Kyocera's Embedded Equitrac Solution*

Kyocera's intuitive color touch screen interface (TSI) is uniquely suited for the Equitrac solution, simplifying user interaction and navigation. Easy-to-read graphics and prompts clearly display Equitrac selections. This embedded solution, available on select Kyocera MFPs, enables users to quickly verify intended job output and associated costs, resulting in efficient office productivity and performance.

Preview Cost
Preview the cost associated with a job prior to printing.

Press to release

Simply press Print to output selected documents.

Eliminate waste

Delete unneeded documents before printing.

Print anywhere

Enjoy complete mobility by accessing documents waiting on any print server.

FEATURES

Cost management

- Fully integrated with Equitrac Office cost management solutions
- Print, copy, and fax tracking captures all document activity
- Eliminates unauthorized printing and the waste of uncollected print jobs
- Color print quota enforcement
- Billing code selection at start of session
- Account balance tracking
- Interactive screen displays the cost of the job for each device on the network and lets users choose which device to send their job

Ease of use

- Intuitive Kyocera color touch screen interface on supported models
- On-screen alphanumerical keyboard
- Single integrated user experience simplifies workflow, increases user satisfaction
- Multi-language support

Security

- Follow-You Printing® for flexible and secure document release
- Documents output only when users are ready to pick them up from the device
- Network or local authentication; optional card reader
- Supports Mag stripe, Mifare®, Legic and HID card reader authentication with session limit enforcement

IT simplification

- Automated installation
- No terminals for IT to install or support
- No additional IP addresses
- Centralizes device management and control
- Windows Server™ 2003 certified
- Support for Windows®, NetWare™, UNIX® and Linux® print servers
- Reduces printer-related help desk calls
- Offline support allows limited MFP use in case of network outage

Kyocera Multifunctional Products

Kyocera MFPs are renowned for their award-winning reliability and exceptional document productivity. Offering one of the most complete suite of utilities, tools and software in the industry, Kyocera helps businesses of all sizes improve information management, boost efficiency, and streamline workflow operations across the organization.
